Midea

Founded in 1968, today Midea is one of more than 10 home appliance brands owned by the leading international technology company Midea Group.

In 2022, Midea Group was ranked 278th on the Global Fortune 500 list, improving its ranking by 43 points compared to the previous year. Midea Group's activities go beyond the production of household appliances and include such areas as Heating, Ventilation and Air Conditioning, Robotics and Automation, Smart Home, Internet of Things, as well as smart logistics and components. The main principle of all Midea Group enterprises is "humanization of technology".

The Midea Home Appliances brand offers one of the widest ranges in the field of home appliances. The brand's product line includes categories such as: air purification, refrigeration, laundry, large and small kitchen appliances, plumbing appliances, home cleaning devices and lighting.

7000 Patents for the last 5 years

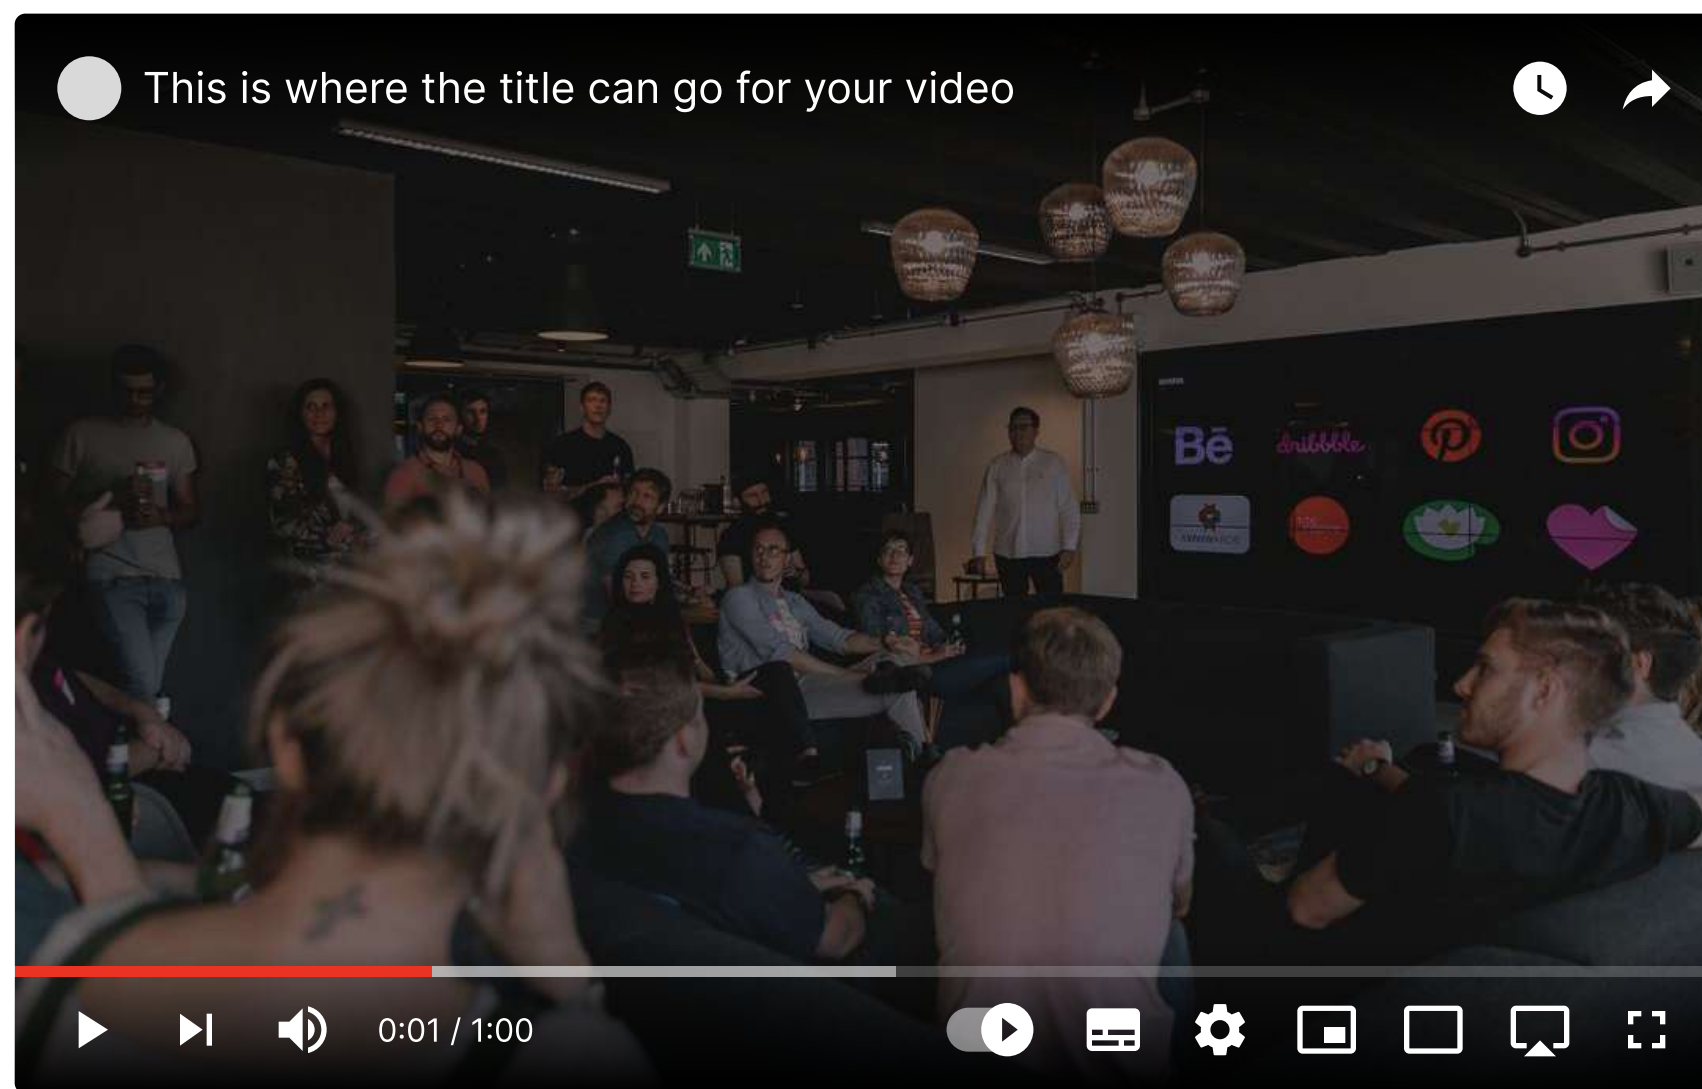

17 Research centers

24 Giant production sites

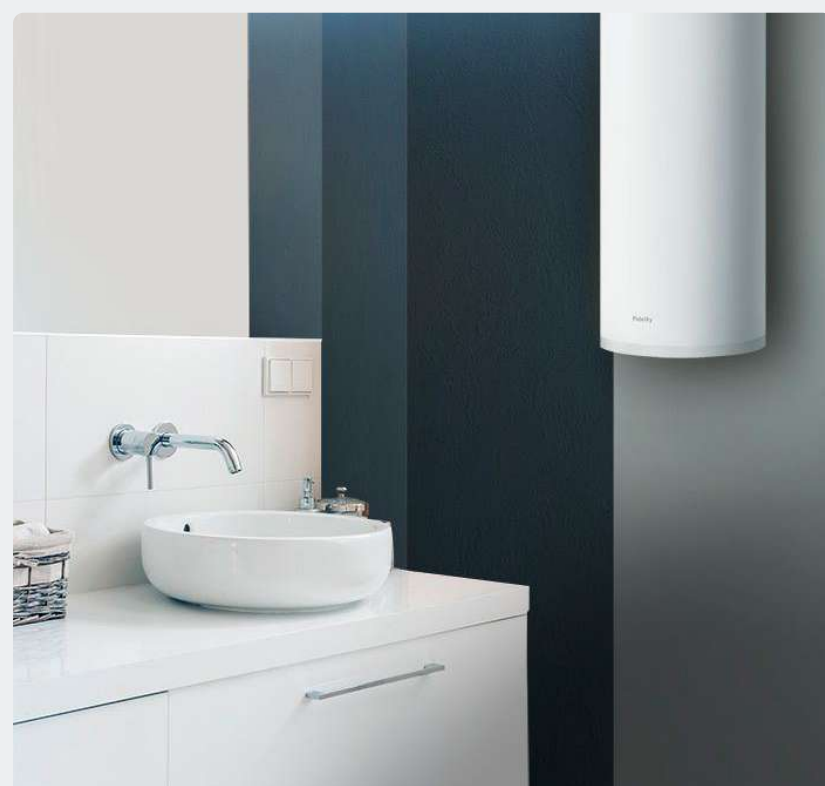

The Midea product is being sold every second

Midea believes in creating truly convenient solutions using a consumer-centric approach, going above and beyond by constantly researching and inventing to meet the changing demands of its consumers. Choosing Midea products means you want to make your home a place where your family enjoys priceless moments together.

In 2018, Midea's 34 global manufacturing centers and more than 166,000 employees in more than 200 countries generated annual revenue of more than \$39.5 billion. And with a strong commitment to research and development, Midea's 28 international innovation centers have generated more than 50,000 authorized patents to date.

Storage water heaters

Electric storage water heaters meet modern requirements for water heating. Low power consumption, a wide range of models and safety allow the use of devices in any room, making them irreplaceable, and in some cases uncontested sources of hot water.

Water heater Midea Aqua 30

Brand: Midea
Model number: D30-15FN

Product information

Description Specification Documents

Midea Water Heater Aqua F3

Long-life tank with Ti+ Enamel

The innovative Ti+ Enamel layer, promotes the water tank to be more durable, by efficiently resisting corrosion & rust and avoiding scale buildup, sustaining your superior use experience.

- 100,000 Times High Pressure Test
- Anti-Rust, Corrosion or Scaling

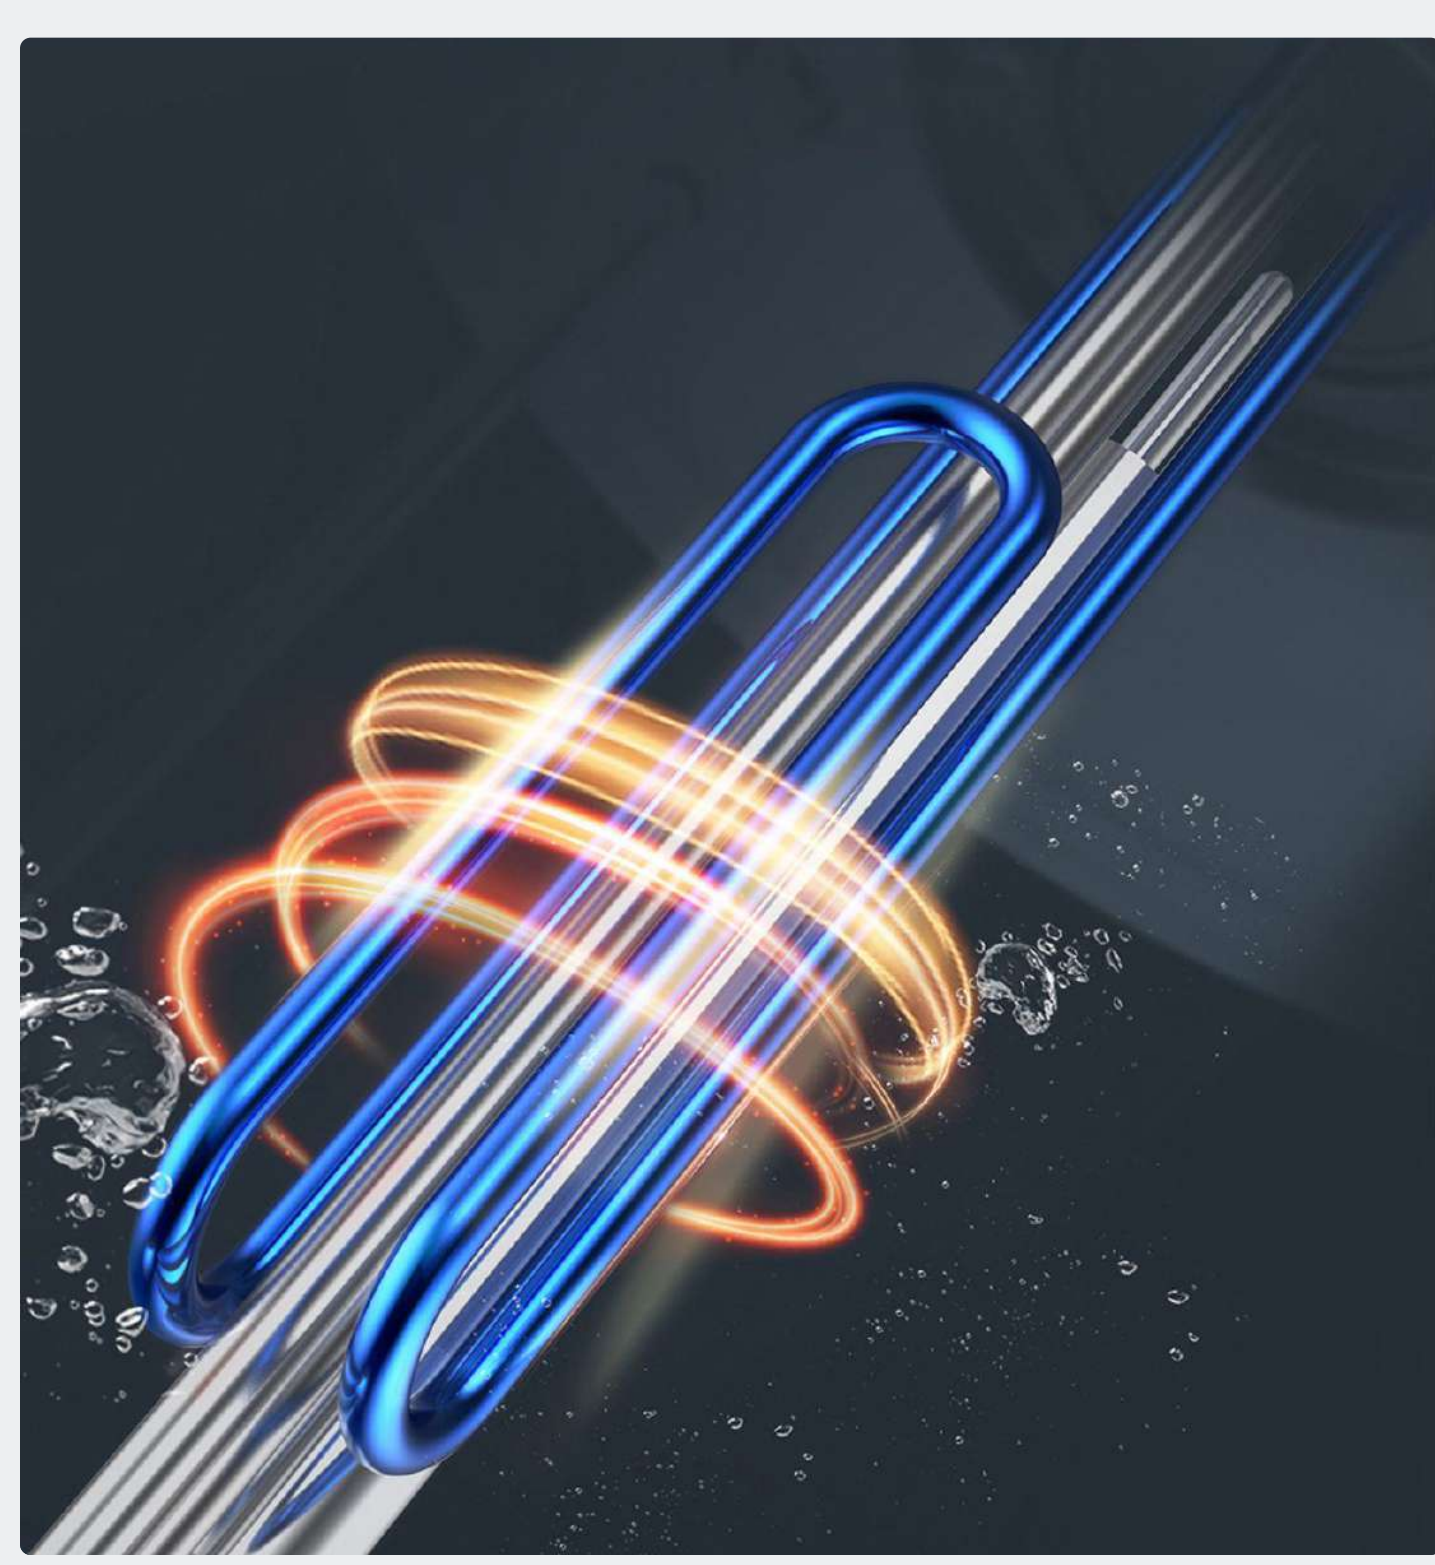

Ti+ Enamel Tank with 3-Layer Tech

- High-level decarburization steel plate layer
- Micro-powder adhesion layer
- 850°C Hi-temp sintered Ti+ Enamel layer

Ti+ Enamel HEATING ELEMENT

The innovative Ti+ Enamel layer, promotes the water tank to be more durable, by efficiently resisting corrosion & rust and avoiding scale buildup, sustaining your superior use experience.

- SUS316L Stainless Steel
- Anti- Corrosion & Scaling

Copper inlet valve

Made of anti-bacterial copper, integrated with pressure release valve, the inlet valve switch on the anti-bacterial journey of water.

- Anti-Bacterial
- Pressure-relief safety valve

Ag+ ANTI-BACTERIAL water inlet

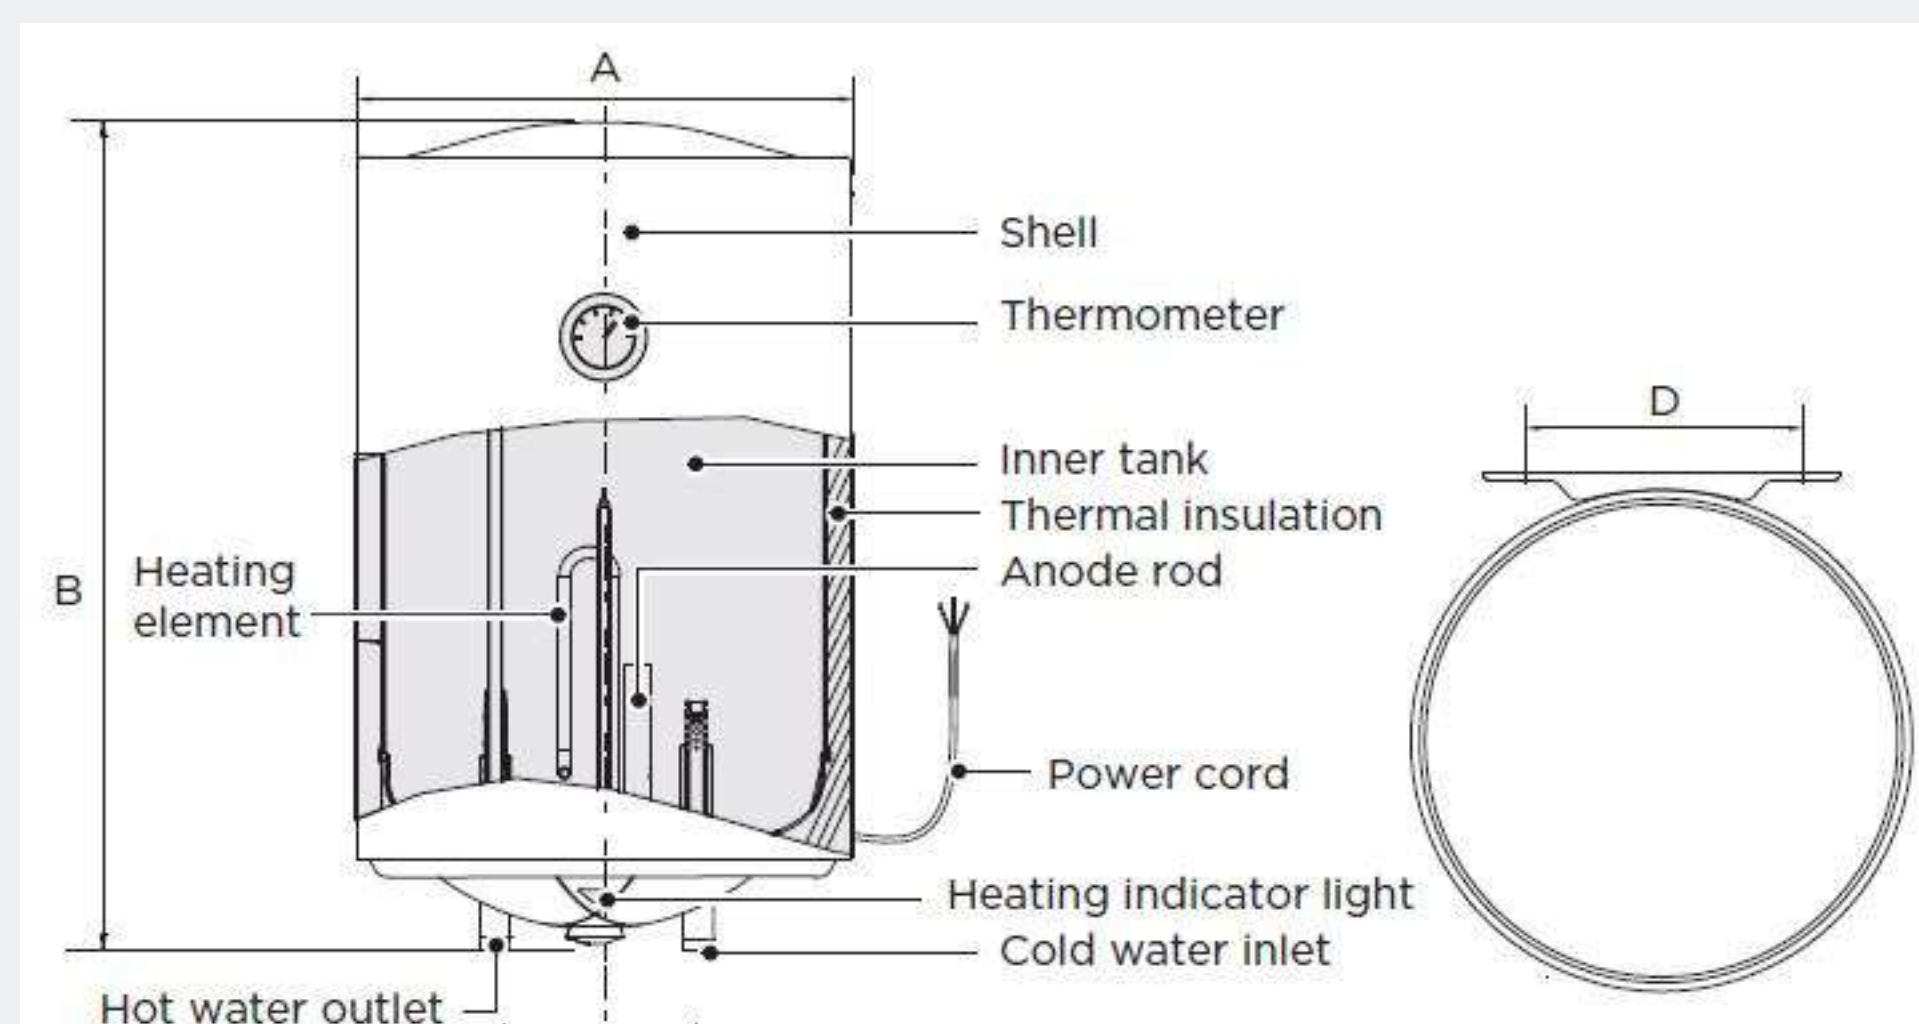

- Ag+ ions consistently inhibits the growth of bacteria in the water.
- SGS Certified, 99.99% Anti-bacterial

Multiple Protection Builds up Superb Durability

Our electric water heater, with multiple strong protections from overheating, dry heating, high pressure and water seepage, guarantees your long-lasting secure usage.

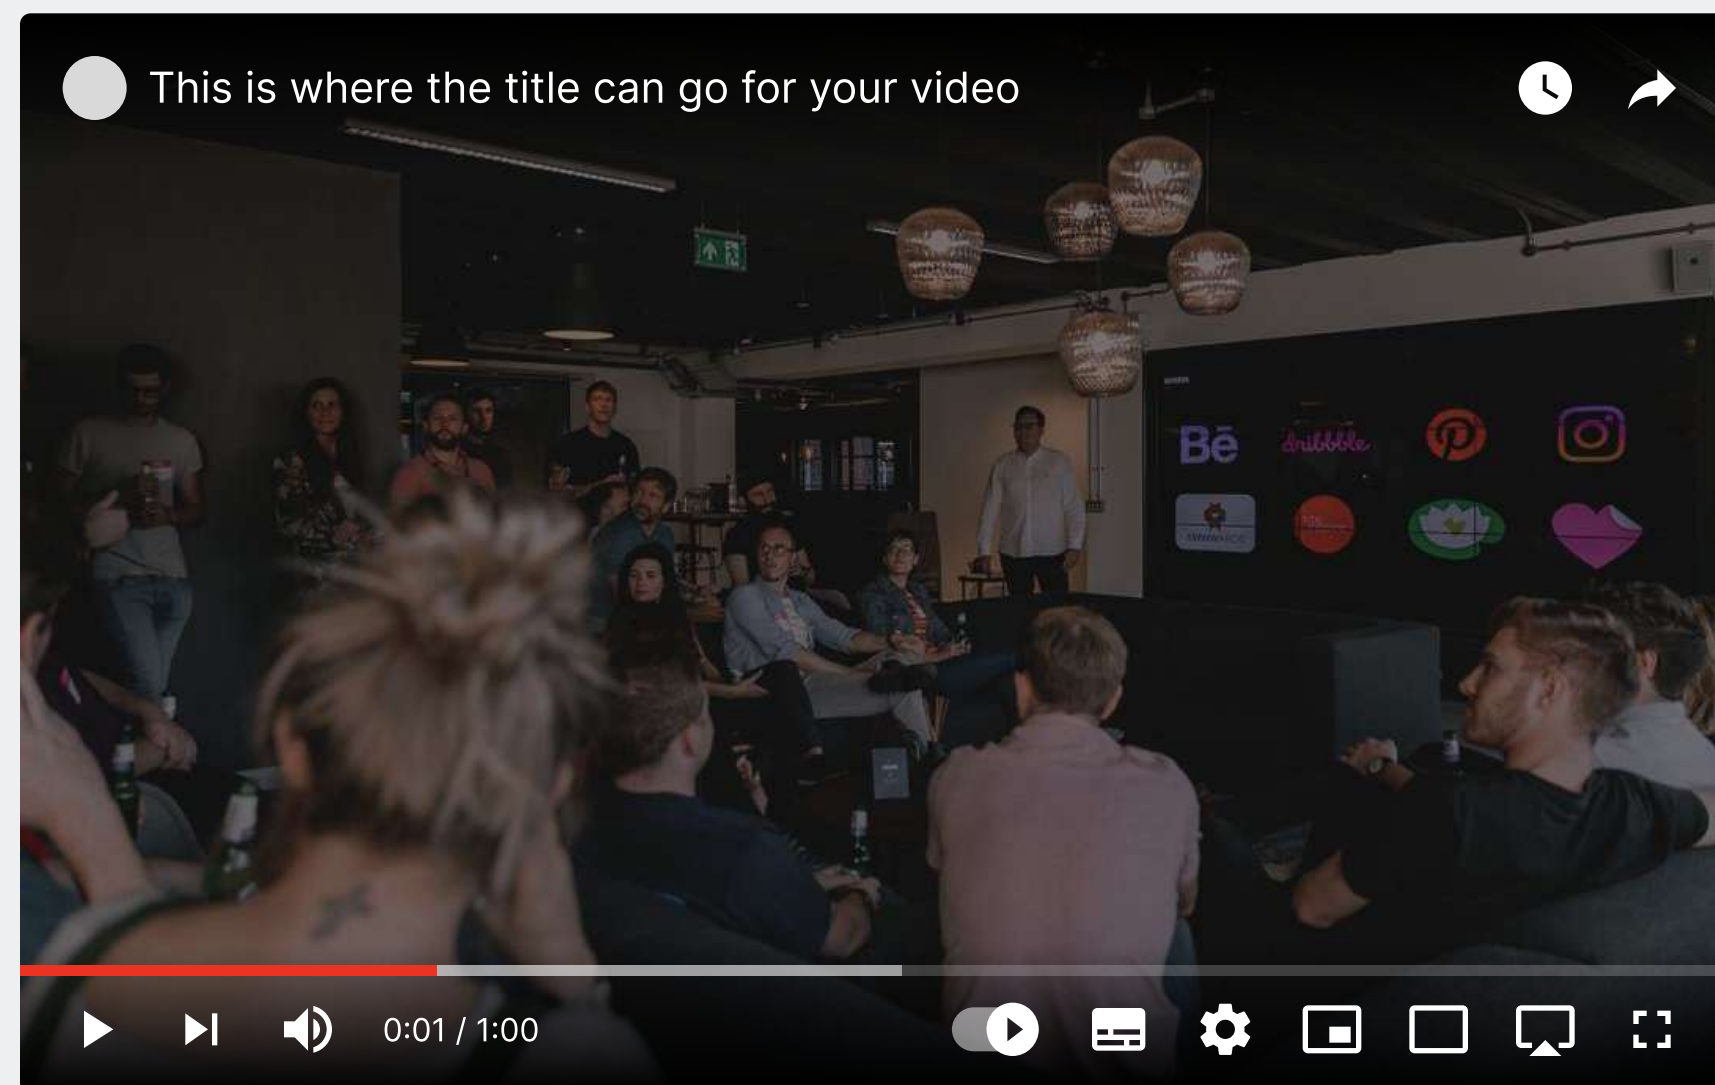

- Over Heat Protection
- Anti-Dry Heating Protection
- Anti-High Pressure Protection
- IPX4 Water-proof Body

Return Policy

WITHDRAWING FROM THE SALES CONTRACT, RETURNING THE GOODS AND PROCEDURES FOR SUBMITTING COMPLAINTS

Nordic Comfort OÜ shall be entitled to withdraw from the sales contract concluded via the e-shop without any sanctions and to not provide the service or deliver the ordered goods in the following cases:

- the goods are out of stock;
- the price or characteristics of the goods have been incorrectly displayed in the e-shop due to a system error of the e-shop.

If Nordic Comfort OÜ cannot fulfil an order submitted in the e-shop, the Purchaser shall be notified in 2 working days via the contact phone or e-mail submitted with the order. The advance payment made by the Purchaser shall be returned in 3 working days, unless there is some other agreement with the Purchaser.

If the goods do not comply with requirements or are deficient, the Purchaser shall be entitled to demand that Nordic Comfort OÜ exchanges these goods for goods that comply with requirements and/or have no deficiencies, or to withdraw from the sales contract and return the goods that do not meet the requirements at the expense of Nordic Comfort OÜ. Purchased goods cannot be returned if they have been prepared in consideration of the personal needs of the Purchaser and pursuant to the conditions submitted by the Purchaser.

Nordic Comfort OÜ shall not be liable for deficiencies of the goods that have been caused by:

- unpurposeful use and/or maintenance;
- natural wear and tear during ordinary use;
- damages wilfully or accidentally caused by the Purchaser;
- maintenance or repairs by an unauthorised person.

Upon selling something to a consumer, the corresponding provisions of the Law of Obligations Act shall apply to the withdrawal from the sales contract and the return of a product not compliant with the requirements. The Purchaser shall also have the right to examine the goods in 14 days and withdraw from the sales contract in 14 days as of the delivery of the goods.

In case of cancellation of the sale contract, it is necessary to send an application to Nordic Comfort OÜ email address within 14 days. The application must contain information about the product being returned, the reason for the return, the order number and the current account to which the money should be returned.

The returned goods shall be complete (include all items that were in the product package) and cannot be damaged or used. If the goods have been purchased during a campaign where some other product has been added to the purchased product, the Purchaser shall return all products (i.e. the whole set received).

Upon withdrawing from the sales contract, Nordic Comfort OÜ shall be entitled to leave the transport costs of the returned goods to be paid by the Purchaser and to deduct it from the sum to be refunded. The sum paid for the goods (except the delivery costs of the goods) shall be returned to the Purchaser's bank account in 30 days as of the receipt of the notice of withdrawal from the contract at the latest, provided that the returned goods have reached Nordic Comfort OÜ.

When returning the goods that did not meet the requirements, the sum paid for the goods and the cost of the transport for returning them shall be transferred to the bank account submitted by the Purchaser in 30 days as of receiving the notice of withdrawing from the order at the latest, provided that the returned goods have reached Nordic Comfort OÜ.

If after returning the goods, the inspection of the state of the goods carried out by Nordic Comfort OÜ has revealed that the goods returned have been used or their state has deteriorated, the Purchaser shall compensate for the decrease in the value of the goods. Nordic Comfort OÜ may submit a relevant claim in 30 days as of the product being returned and the Purchaser shall be obliged to compensate for the decrease in the value of the product.

If the Purchaser does not agree with the decrease in value indicated in the set-off notice, the Purchaser shall be entitled to involve an independent expert to specify the decrease in the value of the product. Expenses related to the expert appraisal shall be split between the Purchaser and Nordic Comfort OÜ, except if the standpoint of one party turns out to be clearly unjustified. In such a case, the expenses related to the expert appraisal shall be incurred by the party whose standpoint turned out to be clearly unjustified.

If an additional seller's or producer's guarantee has been given to the goods, the corresponding conditions shall be provided in writing beside the product in the e-shop and are to be applied pursuant to the conditions.

LIABILITY

Nordic Comfort shall be liable to the Purchaser and the Purchaser shall be liable to Nordic Comfort OÜ for damages caused to the other party by breaching these Conditions in the cases and extent provided in the legislation valid in the Republic of Estonia.

Nordic Comfort OÜ shall not be liable for damages caused to the Purchaser or a delay in delivering the product if the damage or delay in delivery of the product has been caused by circumstances beyond the control of Nordic Comfort OÜ (including a delay in the delivery of goods due to a third person) and the occurrence of which could not have been foreseen (force majeure).

If an agreement is not reached, the Purchaser has the right to turn to the Consumer Disputes Committee for the protection of their rights. Contacting the committee is free of charge to the consumer and the transaction value must exceed 20 euros. You can find out more about the procedural conditions and submit your application here: <https://www.tarbijakaitseamet.ee/en/consumer-disputes-committee>. In order to resolve problems that arise in the Member States of the European Union, the consumer can turn to Online Dispute Resolution <https://ec.europa.eu/consumers/odr/main/?event=main.home.show>.

[Main page](#) > [Terms & conditions](#)

Terms & conditions

General conditions

These Home Climate OÜ, registry code 11424269, (hereinafter referred to as Home Climate OÜ) terms and conditions of purchase and sale (hereinafter referred to as the terms and conditions) apply to all persons (hereinafter referred to as the Buyer) who purchase goods through the Home Climate OÜ e-shop (hereinafter referred to as the e-shop) or order services. Pakendikeskus has the right to change or supplement the conditions and price list without notice. The aforementioned changes and additions will be notified on the website homeclimate.ee and will take effect from the moment of publication.

All personal data of the Buyer that becomes known in the course of visiting the Home Climate OÜ e-store and making purchases are confidential. By entering data in the e-shop, the Buyer gives the right to collect and process the Buyer's personal data (company name, name, contact phone number, address for delivery and/or registration of the goods, e-mail address, etc.) and to transmit the Buyer's personal data to the person performing the delivery of the goods for the delivery of the goods. An encrypted data communication channel with banks ensures the security of the Buyer's personal data and bank details, Home Climate OÜ does not have access to them.

Home Climate OÜ has the right to use the Buyer's delivery and/or registration address for advertising and other information about its products and services. In addition to these terms and conditions, the legal relationships arising from the purchase of products from the e-store are governed by the Law of Obligations Act (hereinafter VÕS), the Consumer Protection Act (hereinafter TKS) and other legislation in force in the Republic of Estonia.

PROCESS OF FORMING AN ORDER FROM THE E-STORE

The buyer adds the desired products to the shopping cart. To complete the order, the buyer presses the «Formulate order» button on the product page or the information button displaying the contents of the shopping cart. The buyer checks the products and quantities added to the shopping cart. If the content of the shopping cart is confirmed to be correct, the Buyer clicks on the «Format order» button. The buyer makes a choice between two types of e-store users. Creating an e-shop account is not mandatory, e-shop orders can be placed both registered and unregistered. Submitting e-store orders while registered and logged in may provide discounts and/or negotiated prices for business customers according to campaigns. The Buyer fills in the contact data and/or delivery data columns carefully, because the quick and trouble-free delivery of the goods ordered by the Buyer and the subsequent settlement of claims depend on the accuracy and correctness of the information provided.

The buyer makes a choice regarding the method of delivery of the goods. Home Climate OÜ offers the following options for delivering the goods: - The buyer picks up the goods himself at the e-store offices in Tallinn; - The goods are delivered to the buyer by courier to the desired address; -The buyer orders the goods at SmartPOSTI or Omniva parcel machine. The buyer chooses the method of payment for the goods. Home Climate OÜ offers the following options for paying for goods: - directly through internet bank links (Swedbank, SEB, Nordea, LHV banks and Mastercard and Visa credit cards); -payment by invoice, which is divided into 3 days for payment in advance or for payment to contracted companies on the basis of an invoice, according to the specified payment deadline. Orders paid in advance by the Buyer in the e-store are processed from the moment of receipt on working days from 08:30 to 16:30. Depending on the volume of work, orders confirmed after 15:00 may be processed the following business day. Also applies to the "I'll pick it up" delivery option. Orders confirmed by the Buyer of the contractual company in the e-shop are processed on working days from 08:30 to 16:30. Depending on the volume of work, orders confirmed after 15:00 may be processed the following business day. Also applies to the "I'll pick it up" delivery option.

Placing an order does not mean an automatic reservation of the goods. After placing the order, the Seller's representative will contact the Buyer as soon as possible to confirm the order and agree on the details. If it turns out to be impossible to fulfill the order, the Seller's representative has the right to offer the Buyer the opportunity to choose an equivalent product. If the Buyer does not want a replacement product, the order is canceled and if it has already been paid for, the Seller returns the money to the Buyer's account within 14 working days from which the transfer was received. Conclusion of the contract The purchase-sale contract between the Buyer and the Seller is deemed to have been concluded from the moment when the Buyer has paid the first deposit for the goods to the Seller's bank account or in cash to the Seller's authorized representative. Canceling the order The buyer has the right to cancel the erroneous order by notifying the Seller via e-mail, telephone or other channels. The order is automatically canceled if the Buyer has not made the first payment within two working days after the payment deadline.
